

# 3pp<sup>®</sup> Elbow P.O.P.<sup>™</sup> Splint

NEW! The 3pp<sup>®</sup> Elbow P.O.P.<sup>™</sup> (Point of Pressure) Splint applies an adjustable point of pressure to reduce pain from medial or lateral epicondylitis (golfer's or tennis elbow) without circumferential force.

## Product Features

- Soft, foam-lined base sleeve will not slip or roll eliminating the need to over-tighten to prevent circumferential restriction.
- 1/8" thick and 1/4" thick pressure pads allow the user to determine the amount of pressure needed for pain relief.
- Hook receptive corrective strap allows user to place pressure pads on horizontally or vertically for targeted support.
- Includes a Design Line cover to prevent hook straps from catching on clothing while adding personality.
- Machine washable. Latex free.

## Order Information

Measure around the forearm just below the elbow crease. Splint fits right or left arm.

	Product Number	Fits
Sm/Med	P4003-23	6" to 10"
