

Easi-Grip® Add-On Handles

PGT-AH (pack of two)

You can have all the benefits of our Easi-Grip® handles without replacing all your garden tools. By simply attaching our Add-On Handles to your favourite hand tools you can make them more comfortable to use.

You can use our arm support cuffs with Add-On Handles too.

By using two Add-On Handles set at right angles to each other on a rake or hoe you can carry out the task without twisting and bending, saving your back as well as your hands!

But please don't think Add-On Handles are only for use in the garden, they have been used on golf trolleys, oars and many other items around the house!

| FEATURE | BENEFITS |
|--|---|
| Easi-Grip® style handle | Keeps the hand and wrist in a natural angle with prevents causing discomfort of the wrist |
| Two steel "Jubilee" clips with plastic wing-spade thumb screws | Handle can be fitted to any tool with a shaft diameter of up to 40mm (1.5") so that tools can benefit from the ergonomic angled handle. Prevents need to replace existing tools with Easi-Grip® tools |
| Can also be added to long shafted tools such as hoes and rakes | Allows a wider working field and prevents the need for twisting and bending |
| Socket for plug in arm support | Allows plug in arm support to also be used. Enables some tasks to be completed one-handed (eg. sweeping) |

Raking and sweeping can be easier if you use an add-on Easi-Grip handle and an arm support cuff – particularly if you use one hand, have a weak grip or weak wrist.

RECOMMENDED FOR

Weak Grip

Visual Impairment

Difficulty Bending

One Handed
